

COUNSELING PROGRAM

Annual Improvement Plan

Student Learning Outcomes (SLO's): The Counseling Program admitted 21 students and graduated 7 students during the 2018-2019 academic year. The CNS faculty reviewed each CACREP standard for every student in courses during the 2018-2019 academic year. Below is an overview of the results.

Disposition Standards: Student dispositions are measured after CNS 619- Foundational Counseling Techniques (n = 10), CNS 790- Practicum (n = 6), and CNS 795- Internship II (n = 3). All students met or exceeded the dispositional standards at these points in their programs.

Clinical Standards: During their clinical experiences (CNS 790- Practicum [n = 6], CNS 794- Internship I [n = 4], and CNS 795- Internship II [n = 3]), students counseling skills are assessed by faculty supervisor and site supervisor. All students met or exceeded the clinical standards at these points in their programs.

Capstone Projects: Students complete three capstone assignments during the course of their counseling program (CESA [n = 6], Oral Defense [n = 3], and CPCE [n = 2]). All students met or exceeded the capstone projects at these points in their programs.

Core Standards: Each Core CACREP standard is assessed via an assignment, evaluation, or task in the program. Faculty review each standard for each student. All core standards were met by all students.

New assignments that focus on the Kentucky Law and the ethical decision making model will be created in the CNS 625, Legal and Ethical Issues in Counseling.
