COUNSELING PROGRAM ANNUAL IMPROVEMENT PLAN 2020-2021

Annual Improvement Plan

Purpose: The Counseling (CNS) Program is dedicated to improve the Program curriculum, organization, and communication by frequent and routine evaluations. Various groups help in the evaluation process: CNS students during their last semester of the Program, graduates of the CNS Program within six months of graduating, employers of recent graduates, and practicum and internship site supervisors. Through an anonymous survey format, each of these groups provide feedback on the strengths and challenges of our Program curriculum and student educational experiences. The surveys are the Program Evaluation, the Graduate Survey, the Graduate Employer Survey, and the Site Supervisor Evaluation of Counseling Program. The CNS faculty compile, analyze, discuss and utilize the feedback to determine future foci and/or changes to the Program. In addition, at the end of each semester, CNS faculty review the progress of each student on all CACREP standards and utilize this information to enhance program curriculum and develop student remediation, if necessary. Lastly, we share the reports with our Advisory Board and discuss possible changes to the program.

Program Evaluation: The counseling faculty aim to conduct an assessment of the effectiveness of the counseling program. An important component of this review is to ascertain the quality and relevancy of the program and course content from the point of view of current students and graduates. Results are analyzed and used to help the program identify areas of strength and areas that are in need of enhancement. The following are the results of the evaluation administered to six students who each completed a program evaluation at the completion of their exiting exam.

- o CNS 710, Counseling Children and Adolescents
- o CNS 720, Elementary School Counseling
- o CNS 722, Substance Use & Addictions Counseling
- o CNS 725, Middle/Secondary School Counseling
- o CNS 790, CNS 794, CNS 795

students in the satisfactory range for personal and professional growth, professional counseling identity, collegiality, accountability, professional leadership, contact with professional organizations, high ethical standards, ongoing professional development and openness to supervision and feedback. Though most of these only had two responses. All content skills and knowledge were rated agree to strongly agree.

Recommendations. In order to address the areas for improvement, the counseling program faculty met and discussed how to proceed. Most areas for improvement were only noted by one to two respondents. However the areas of professional leadership and contact with professional organizations had four and three respondents respectively. The faculty expect students to join ACA or ASCA when they begin clinicals. We will discuss opportunities for students to share their experiences with professional organizations with their sites. Profession leadership needs to continue to be addressed. Faculty will work with students to identify ways the can excel, volunteer, and advocate as a leader not only in their site but in the profession as a whole.

	procedures.

CMHC KPI 1.2 - Counseling Skills: Students who complete the program will demonstrate the ability to conduct formal interviews, properly diagnose, create treatment plans, document services appropriately, and provide varying techniques to promote wellness

When assessment occurs	Assessment Tool	Party Conducting Assessment	Criteria for Success	Implication of Analysis
CNS 676 Role Plays and Documentation	Role plays and Case Documentation Rubric	Faculty Instructor	The student will <i>meet</i> on the role plays and documentation.	During the 2019- 2020 academic year, nine counseling students were enrolled in CNS 676, Clinical Diagnosis and Treatment Planning. All nine students met expectations on the Role Play Project, indicating that these students were able to demonstrate sound ability to conduct various counseling, intake interventions.
CNS 694 Practice Sessions	Session Review Form Rubric	CNS Faculty Instructor	The student will <i>meet</i> on the session review form rubric	No results can be reported at this time, as CNS 694, Advanced Counseling and Supervision was not offered during the 2019-2020 academic year.
CNS 795/797 Site Supervisor Evaluation	Site Supervisor Evaluation Final Evaluation	Site Supervisor	I	acadenne year.

The Program is giving students the option to take the CPCE at Murray State at a specified date/time, or at a testing site of their choosing at a date/time of their choosing. Students who enter program via initial certification (option 9) will need to demonstrate ethical knowledge and theoretical orientation. A lifespan development question will be added to the CESA as a second of three programmatic assessment points in human development. Faculty will encourage students to join ACA/ASCA prior to clinicals. Students will be encouraged to share professional organization experiences with their site/site supervisor so as to advocate for the profession.

Faculty will provide study guides for course exams at the start of certain classes.

The faculty will propose a new Social Justice and Advocacy Course to better align the program with their mission and objectives.

The program will create a new student data tracking system.

Graduation & Postgraduate Placement

During the 2019-
